When it comes to talking about water

- Which picture sums it up best?

A

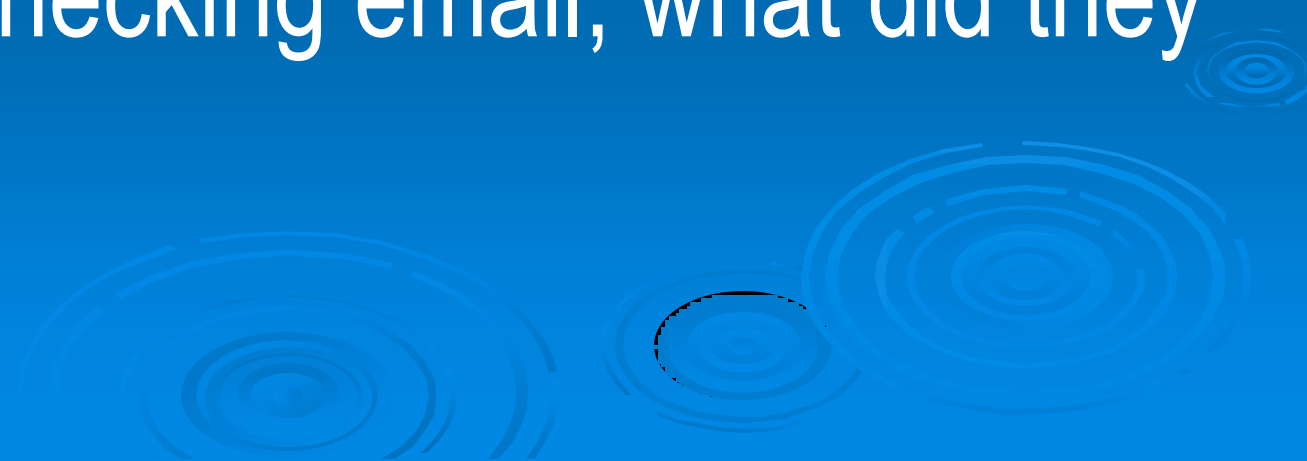

B

C

What are your thoughts on how the Water Plan will define Sustainability?

- A. I understand and agree
 - B. I understand, but disagree
 - C. I need to hear more
 - D. I was checking email, what did they say?
- 
- The bottom of the slide features a decorative graphic of several concentric circles, resembling ripples on water, rendered in a lighter shade of blue against the background.

How do you Rate the sustainability of water management in California?

- A. We're doomed
 - B. There's hope
 - C. We've nailed it!
 - D. Great in my area, but the rest of the state needs to catch up!
- 
- The bottom of the slide features several concentric, light blue circular ripples on a darker blue background, resembling water droplets or raindrops.

How might California revisit regulations to encourage sustainability?

- A. More regulations
- B. Less regulations
- C. Regulations adaptable to location
- D. Regulations that consider balance of all societal values
- E. Stricter enforcement of existing regulations

What should California do to assure stable funding that encourages sustainability?

- A. More bonds
- B. Statewide assessments
- C. Increase taxes locally
- D. Beg for State General Fund
- E. Beg the Feds

To improve governance, the state needs to...

- A. Articulate clear policies based on common goals
 - B. Establish river basin planning groups
 - C. Facilitate collaboration among existing public agencies
 - D. Add more departments and agencies
 - E. Just do things my way
- 

What word best describes
your hopes for the
2018 California Water Plan?
